## 7.1.9 Sensitization of students and employees of the Institution to the constitutional obligations

### Sensitization of Students and Employees Towards Values, Rights, Duties

India, as a country, includes individuals with different backgrounds viz., cultural, social, economic, linguistic, and ethnic diversities governed and guided by the Constitution irrespective of caste and religion. Our institute sensitizes the students and the employees of the institution to the constitutional obligations about values, rights, duties, and responsibilities of citizens which enables them to conduct as a responsible citizen. To equip students with the knowledge, skill, and values that are necessary for sustaining one's balance between a livelihood and life by providing an effective, supportive, safe, accessible, and affordable learning environment. These elements are inculcated in the value system of the college community.

The college establishes policies that reflect core values. Code Of Conduct and Professional Ethics is prepared for students and staff and all stakeholders should obey the conduct rules. Code of conduct and professional ethics policy is also displayed on college website to all. A handbook is published and distributed to all departments and some copies are kept in library. All stakeholders are made aware about Code of Conduct and Professional Ethics in several activities like induction programme, staff council meeting, parents/alumina meet, and NSS/NCC programs. The affiliating University curriculum is framed with mandatory courses like Constitution of India, Human Values, Essence of Indian Traditional Knowledge, as a small step to inculcate constitutional obligations among the students.

The display boards like Preamble of constitution, fundamental rights and fundamental duties of Indian citizens are displayed in the front area corridor.
