8) Theme Activity:

The Induction Programme is organized by the college for newly admitted first-year students with the objective of familiarizing them with the institutional environment and academic framework. Through this programme, students are introduced to the facilities available in the college, the university curriculum, and the preparation required to successfully pursue their studies.

As students enter the college, they become an integral part of a larger academic family. The programme helps them understand the code of conduct expected from them and provides an insight into the values and culture of the institution, which contribute to shaping them into responsible and successful citizens of tomorrow.

In addition to academic orientation, the Induction Programme also highlights various co-curricular and extracurricular opportunities available to students. These include inter-collegiate debates, seminars, workshops, cultural events, and guidance on how to prepare for competitive examinations. The programme aims to equip students with the necessary knowledge, skills, and motivation to make the most of their college journey.

Report on Educational Tour

Educational Tour

Date: 05/03/2026

Objectives of the Study Tour

- To provide economics students with practical exposure to different types of markets and business environments.
- To familiarize students with modern trade centers such as malls and urban commercial hubs.
- To help students understand the structure and functioning of contemporary market systems.
- To create awareness about historical marketplaces, such as those at Raigad, and their significance in the past.
- To study the evolution of trade practices from ancient to modern times.
- To develop an understanding of the cultural and historical foundations of commerce and trade.
- To enhance observational, analytical, and learning skills through real-life experiences.
- To bridge the gap between theoretical knowledge and practical application in economics.

Activity :

The Department of Economics organized a study tour to various important locations in Maharashtra such as Pune and Aurangabad with the objective of providing practical exposure to students regarding economic development, market systems, industrial growth, and tourism opportunities.

During the tour, students visited modern market structures such as shopping malls and urban commercial centers in Pune to understand contemporary retail systems, consumer behavior, and organized trade practices. They observed how urbanization and technological advancements have contributed to the rapid growth of commercial activities.

The tour also included visits to industrial areas in Aurangabad, where students studied the development of industries, infrastructure, and employment opportunities generated through industrialization. They gained insights into how regional development contributes to state and national economic progress.

In addition, students were introduced to historical trade systems through references to traditional marketplaces such as those found at Raigad Fort. This helped them understand the evolution of trade from ancient to modern times and the cultural and historical foundations of economic activities.

The study tour also highlighted the importance of the tourism sector in Maharashtra. Visits and discussions related to historical and cultural sites enabled students to understand tourism as a major source of revenue and employment. Overall, the activity helped students bridge the gap between theoretical knowledge and practical understanding. They developed better analytical skills, gained awareness about economic development in Maharashtra, and understood various career and employment opportunities arising from industrial and tourism growth.

Report on Field Visit

Field Visit (Chandai)

Date: 14/02/2026

Field visit organized to provide practical exposure to rural economy and agriculture.

Objectives of Field Visit

- To provide students with practical knowledge of agriculture-based industries.
- To familiarize students with allied agricultural activities such as poultry farming, dairy production, goat rearing, and mushroom cultivation.
- To create awareness about modern agricultural startups and innovative farming techniques.
- To help students understand the economic potential of agriculture and its allied sectors.
- To encourage students to explore self-employment and entrepreneurship opportunities in agriculture.
- To bridge the gap between theoretical knowledge and real-life agricultural practices.
- To expose students to successful farming experiments and progressive farmers' initiatives.
- To develop interest and motivation among students towards agriculture-based occupations.

Importance of Field Visit :

Field visits provide hands-on learning and real-world exposure beyond classroom teaching.

They help students understand the practical implementation of agricultural concepts and techniques.

Students gain insights into income generation through supplementary agricultural activities. It enhances awareness about sustainable farming practices and rural development. Field visits promote entrepreneurial thinking and innovation among students. They improve observational, analytical, and problem-solving skills. Students get an opportunity to interact with farmers, entrepreneurs, and experts in the field. It helps in understanding employment opportunities in the agriculture and allied sectors. Such visits inspire students to consider agriculture as a viable and profitable career option.

Report on Arthdyan Aptitude Test Examination

Date: 28/03/2026

Examination conducted to assess students' economic knowledge.

Objectives of the Economic Aptitude Test

- To assess students' knowledge of economics, current economic developments, and general awareness of national and global economic issues.
- To evaluate students' understanding of historical, social, and political aspects related to economics.
- To encourage students to stay updated with current affairs and develop analytical thinking regarding economic and political developments.

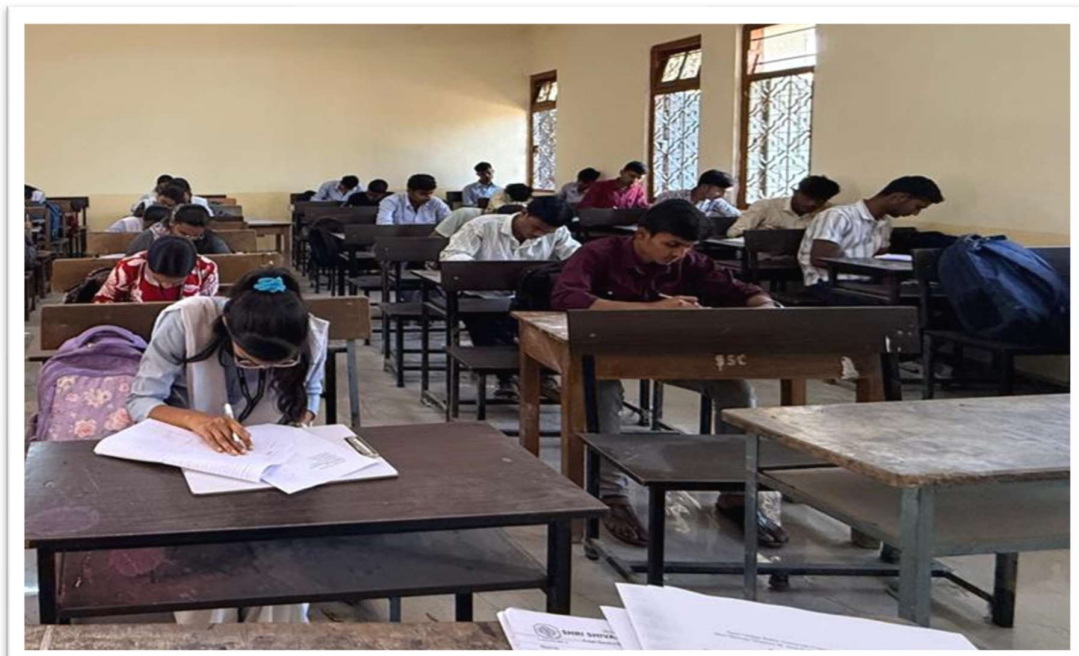

Activities and Importance :

The Department of Economics organized an Economic Aptitude Test for students to evaluate their awareness and understanding of economic concepts, current affairs, and socio-political conditions. A large number of students from the college actively participated in the examination. The test included questions based on recent economic developments, historical economic background, and contemporary political and social issues. This activity helped in assessing the intellectual level of students and their preparedness in the field of economics.

The importance of this activity lies in its ability to enhance students' awareness of current economic trends and national development. It encourages students to regularly follow economic news, policies, and government decisions. Moreover, it helps in developing critical thinking, analytical ability, and competitive exam readiness among students. Through this test, students gain a clearer understanding of their strengths and areas that need improvement, which ultimately contributes to their academic growth and prepares them for future careers in economics, administration, and related fields.
